BIKE GLIDE

Pull the platform down, place your bike on the rails and simply glide the rack back up.

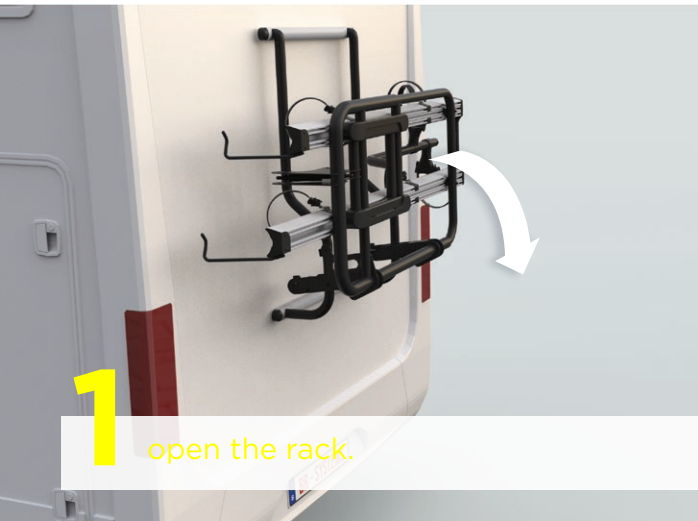

Enjoy your camper adventures with the **Bike Glide.**

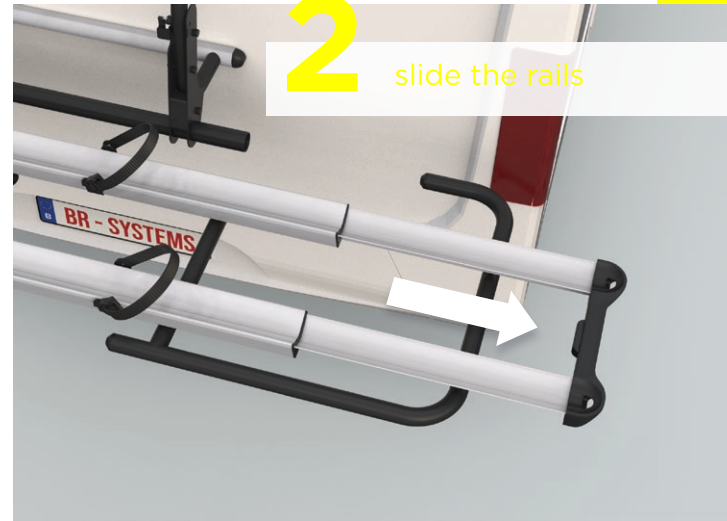

SCAN FOR VIDEO

Specially designed for camper vehicles, our Bike Glide Carrier offers maximum comfort for the transportation of your E-bikes or heavy bikes. Effortless loading and no more back pain – it's the ideal solution to transport your bikes with ease.

Our patented Bike Glide Carrier offers smooth manual operation, making it so easy to load and unload your classic and E-bikes.

1 open the rack.

2 slide the rails

3 tilt the platform

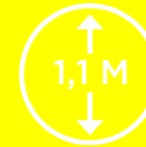

4 ride & glide your bike

Say Goodbye to Back Pain:

No more lifting heavy bikes!
The integrated gasspring will do the job for you. No need to lift the bike yourself.

Ground-Level Lowering:

With the Bike Glide Carrier, you can glide the carrier to ground level on most camper vehicles, ensuring easy access and convenience. **The carrier can bridge a height difference of 1,1m.**

Easy Installation:

Enjoy a trouble free setup with our bike carrier. **No electric connection is needed**, making it quick to install.

Maximum Load Capacity:

The Bike Glide Carrier has a **maximum load capacity of 60kg**, ensuring you can transport 2 E-bikes or classic bikes.

Extra Strong Platform:

The use of steel material and extra robust platform guarantee an everlasting durability.
